PRESS RELEASE

Worthing Match Postponed

As I am sure everyone is more than aware, the new COVID variant has caused a considerable increase in cases, particularly in London.

We have made every effort to protect all our staff, members and visitors at all Esher home events over the last two weeks. However, unfortunately there has been a number of positive tests amongst the first team squad, both players and support staff, and the decision was taken yesterday to both cancel training and most unfortunately to postpone the game at Worthing on Saturday.

This decision was taken following the RFU advice yesterday and of course on the basis of protecting our players from further exposure particularly at this time of year.

As I am sure everyone understands, the safety of all our players is paramount in these times and we will be monitoring the situation over the Christmas and New Year break in the hope that the action taken now will allow our season to continue in the New Year.

Finally, I can only hope and wish that everyone at the club is able to enjoy Christmas and the New Year celebrations.

Please stay safe,

Ross Howard
President
ESHER RUGBY
